BACK FROM THE STATE CAMP.

MENTS AT PEEKSKILL

The 8th Regiment returned from the State Camp last night, and many of the members were glad enough to get home. It has been hot work during the last two days to go through the battalion manoeuvres wearing dark-colored clothes that attracted the boiling sun. The 8th ends the season as far as regiments are concerned; the one week more that the camp will be open will be taken by a provisional battalion composed of separate companies from towns in the interior

years in the existence of the camp. It was opened on June 168 and closes August 11. The regiments selected for camp duty this year were the 8th, 11th, 13th, 14th, 32d, 65th and 69th; besides these there were a number of provisional battalions made up of The 14th Regiment opened the separate companies. camp this year as it did in 1886. The camp has gradually been enlarged so that each military organization in the State can now occupy it for a week once every two years. Great improvements are also contianally being made and the place this year, with its permanent buildings for mess halls, kitchens and commissary storehouses, its scrupulously clean company streets, its abundant water supply and improved facilities for bathing, make it a different place than when it was first opened about eight years ago. Adjutant-General Josiah Porter has been post commander this relieves the commanders of the different regiments of much detail work that would to a great extent interfere with their using the time for drilling the men, and in that way much valuable time would be lost.

He stated that the great press of work in the Post Office departments is in the early were put on, half the time the majority of them would have nothing to do, therefore part of the force is laid off during the slack time, which is called a "swing." "The public service is the first thing to be considered, even at the sacrifice of a little inconvenience to some of the men."

The Letter Carriers' Association will meet to-day, when their course of action in relation to the alleged violations of the eight-hour law will be decided upon. John Blakeley, who is one of the most carnest supporters of the com plaining carriers, has prepared a circular criticising Post master Pearson for his apparent hostility to the eight-hour law, which was enacted with the approval of the Post-
